LegalLink is the global leader in **court reporting, legal videography, and trial services**. From Houston to Hong Kong, LegalLink provides you with one-stop convenience, the best reporters in the business, and cutting-edge technology.

COURT REPORTING

Our reporters are the fastest and most accurate in the industry—and we take care to match the right reporter with the right job. As the industry leaders in deposition technology, we offer:

- » **Realtime deposition reporting**
Receive an instant visual display of the deposition testimony as it is spoken and leave the deposition with an electronic transcript in hand.
- » **Realtime internet service**
Monitor depositions taking place anywhere on the planet without leaving your desk.
- » **One call or click scheduling for any city worldwide**
With one call to your local LegalLink office, or one click of the mouse, you can schedule expert court reporters and videographers in virtually any location worldwide.
- » **Dedicated case managers**
When you have a large case, LegalLink will assign a case manager to coordinate all aspects of your litigation, including scheduling, archiving, and dissemination of your copies.
- » **Secure e-mail delivery of transcripts**
Using RealLegal's E-Transcript™, LegalLink can send the final transcript or daily rough to you instantly via secured, encrypted e-mail.
- » **Delivery of transcripts with linked exhibits**
LegalLink can deliver transcripts linked with exhibits using LiveNote™; or use our own exhibit linking service and you'll receive one easy-to-use CD with no special software needed.
- » **Conference rooms and in-house videoconferencing capabilities**
LegalLink provides dedicated conference rooms with videoconferencing capabilities to meet your deposition needs.

LEGAL VIDEOGRAPHY

Legal videographers only have one opportunity to get the footage right. It is critical to hire a video provider that employs skilled and trained legal video specialists using the latest technology. LegaLink provides:

- » **The best videographers and equipment in virtually any location worldwide**
Our legal videography expertise allows you to preserve deposition testimony beyond the written record on broadcast-quality video equipment operated by trained professionals.
- » **Flexible data delivery for video you can use anywhere, anytime**
LegaLink can deliver your video in VHS, CD, DVD, or directly to a hard drive.
- » **Video on CD or DVD for easy viewing**
Whether you need to convert an existing VHS tape to digital format or would like delivery of your deposition on CD or DVD, LegaLink's **Direct-2-Digital** service can generate a digital version of your deposition video playable on virtually any standard PC or laptop—no additional software needed.
- » **Synchronization**
LegaLink synchronizes your CD or DVD video to the certified ASCII transcript. This means that you can find, prepare, and present video testimony quickly and easily. We synchronize to all of the major software packages.
- » **Videotape, CD or DVD duplication**
LegaLink offers fast turnaround for multiple copies.
- » **Editing**
Our expert staff helps you select only the testimony you need for trial, settlement talks, or arbitration by copying testimony excerpts from the source to an edit master. You can choose to receive the edited testimony on videotape, CD, DVD or other portable storage device.

TRIAL SERVICES

We can be there in the courtroom with you, or train your staff to manage the trial presentation system. Our comprehensive service includes everything from initial strategy consultations to choosing software to making sure you have every piece of equipment you need.

- » **Case strategy and consultation**
We consult with you to design a presentation program that meets your case needs. Our consultants will explain the available presentation options and help you choose one that will allow you to make your case persuasively.
- » **Trial software reselling and training**
Our trainers provide one-on-one or group instruction at our training center or your office on the leading trial presentation packages.
- » **Experienced courtroom technicians**
We assist with war room preparations and presenting evidence at trial.
- » **Digital document image annotation and video clip creation**
We can prepare and annotate documents or prepare digitized video testimony within the major trial presentation packages.
- » **Presentation computer and display rentals**
We provide all the computer systems, peripherals and display equipment necessary for a successful presentation.
